User Manual

Type-C Charging cable

Usage tips

Please read this manual carefully before using.

Do not charge the earphones when they are wet as this will damage the charging terminals. Remove any moisture with a soft dry cloth, and let it dry naturally before charging.

- Always check the earphones are not in your pockets when washing clothes (pants, shirts, etc.).

Tips

▲ When one earphone does not work (pairing function is not enabled).

Solution:

Step 1: Turn off your mobile's Bluetooth.

Step 2: Put the two earphones back into the charging case and close the lid.

Step 3 Take out the two earphones and place them on the table at the same time, wait for 15 s to pair automatically.

Product Usage

- Use the original charging cable to charge. Fast charging are prohibited.
- Charge the charging case before using the earphones for the first time.
- Charging case indicator lights will flash when charging the case with a Type-C cable. The lights will stay on when the device is fully charged.
- The left LED on the case is responsible for the left earphone and the right one for the right earphone. When the right earphone is placed in the case, the right indicator LED lights up with a steady light. It will turn off when the earphone is fully charged. The same principle applies to the left earphone and a situation when both earphones are inserted at the same time.
- The charging case is equipped with a convenient built-in wireless charging coil, enabling you to recharge the battery effortlessly. Simply utilize a wireless charger (available for purchase separately) or any other device capable of wirelessly charging to efficiently power up the battery. Charging case indicator lights will flash during wireless charging, while they will stay on continuously when the device is fully charged.

Power on

- Open the lid of the case, the earphones will power on automatically.
- In the power-off state, press and hold the two earphones for 3 seconds to power on.

Power off

- Put the earphones into the case, then close. The earphones will power off.

Bluetooth Pairing

Bluetooth Pairing.

Remove the earphones from the case; they will power on as shown by the indicator light flashing. Select „3mk LifePods“ from the list of Bluetooth devices on your mobile to pair your earphones.

Bluetooth Pairing another device.

- If a previously paired device is nearby, go to your Bluetooth settings and switch off the current connection with the earphones, they will switch to pairing mode, and it will be possible to search for them and pair them with another device.
- If a previously paired device is not nearby, please consult the "Bluetooth Pairing" section.

Switching between paired devices.

Go to your Bluetooth settings and switch off the current connection with the earphones, then go to the Bluetooth settings of the device you would like to connect to and select connect.

Remove Bluetooth Connection.

Click quickly 5 times on any side of the earphones while they are turned on, the earphones will be turned off. After restarting, the pairing history information will be cleared.

How to Wear

Take the earphones out and put them in your ears, and wiggle them slightly to ensure the best fit and comfort.

Product Specification

- Nazwa: HARDY® LifePods Pro™
- Bluetooth Version: 5.3
- Speaker size: 13 mm
- Impedance: 32 Ω
- Charging port: Type-C
- Frequency range: 20-20.000 Hz
- Charging time: 1,5 h
- Playtime (without ANC): 6,5 hours
- Playtime (with ANC ON): 5,5 hours
- Wireless charging time: 4 hours
- Standby time: 150 days
- Battery capacity: 33mAh
- Charging case battery capacity: 380mAh
- Bluetooth signal distance: 15 m

Earphone charging

Put the earphone into the charging case to charge when it indicates low power
